Mini-Com® Stainless Steel Faceplates

PANDUIT®

SPECIFICATION SHEET

specifications

Stainless steel faceplates with labels shall be available in 2, 4, and 6-port single gang and various double gang configurations. Each faceplate shall accept copper, fiber, and AV modules that snap in and out without the use of tools. Faceplates shall have flush profile, and optional built in label pocket for easy identification. Stainless steel material shall be attached to a high impact ABS backing to provide a durable faceplate with brushed stainless steel finish.

technical information

Material:	304 grade stainless steel with satin finish is mounted on ABS backing and is suitable for hospital and laboratory environments; easy to clean
Mounting options:	Screw holes spaced for single and double gang openings; compatible with Panduit wall board adapters
Packaging:	Supplied with two or four 1" long, #6-32 slotted head screws; faceplates packaged one per bag, ten per box; labeled faceplates include label kit

key features and benefits

Durable	Impact resistant material supports installations in high traffic
Modular	Accepts all Mini-Com® Modules which snap in and out for easy moves, adds, and changes
Various port densities	Provides design flexibility
Flush mounting	Provides superior aesthetics
Label version available	Can be clearly identified with optional labels for port identification
Sloped recessed	Allows proper bend radius

applications

Mini-Com® Stainless Steel Faceplates are ideal for use in hospitals, laboratories, schools, and office environments. The faceplates are compatible with most standard single and double gang electrical boxes, wall board adapters, and raceway mounting brackets. These durable stainless steel faceplates are available with or without labels. Printable labels are available for compliance to the ANSI/TIA-606B labeling standard.
